Plant and Soil **154**: 313–316, 1993.

Contents Volume 154 (1993)

Selected papers from the **PROCEEDINGS OF THE EIGHT INTERNATIONIAL SYMPOSIUM FOR THE OPTIMIZATION OF PLANT NUTRITION**

Determination of lead in white lupin by anodic stripping voltammetry 1
M.M.P.M. Neto, A. De Varennes

Determination of copper in different chloroplast preparations 7
J.B. Arellano, M. Baron, A. Chueca, M. Lachica

Potassium supplying capacity of northeastern Portuguese soils 13
E.A.C. Portela

Nutritional disorders between potassium, magnesium, calcium, and phosphorus in soil 21
S.T. Jakobsen

Long-term effects of gypsiferous coal combustion ash applied at disposal levels on soil chemical properties 29
R.F. Korcak, W.D. Kemper

DRIS evaluation of persimmon (*Diospyrus kaki* L.) 33
I. Klein, L. Fanberstein, L. Viner

A multivariate diagnosis approach applied to celery 39
N. Tremblay, P. Auclair, L.-E. Parent, A. Gosselin

Design and analysis of mixture systems: Applications in hydroponic, plant nutrition research 45
E. Schrevens, J. Cornell

Genotypic variability for physiological efficiency index of nitrogen in oats 53
D. Isfan

Mapping of genes for copper efficiency in rye and the relationship between copper and iron efficiency 61
R. Schlegel, R. Kynast, T. Schwarzacher, V. Römheld, A. Walter

Differences in uptake kinetics of ammonium and nitrate in legumes and cereals 67
T.P. Rao, O. Ito, R. Matsunga

Growth analysis of soil-grown spinach plants at different N-regimes 73
E. Smolders, J. Buysse, R. Merckx

Effects of fertilization levels in two farming systems on senescence and nutrient contents in potato leaves 81
A. Berchtold, J.-M. Besson, U. Feller

Nitrogen uptake in relation to water availability in wheat 89
J.P. De M.E. Abreu, I. Flores, F.M.G. De Abreu, M.V. Madeira

Effect of iron chlorosis on mineral nutrition and lipid composition of thylakoid biomembrane in *Prunus persica* (L.) Bastch. 97
E. Monge, C. Pérez, A. Pequerul, P. Madero, J. Val

Evaluation of structural and physiological plant characteristics in relation to the distribution of cadmium in maize inbred lines 103
P.J. Florijn, J.A. Nelemans, M.L. Van Beusichem

Effect of withdrawal of phosphorus on nitrate assimilation and PEP carboxylase activity in tomato 111
D.J. Pilbeam, I. Cakmak, H. Marschner, E.A. Kirkby

Hydraulic properties of sphagnum peat moss and tuff (scoria) and their potential effects on water availability 119
F.F. Da Silva, R. Wallach, Y. Chen

Effects of environment on the uptake and distribution of calcium in tomato and on the incidence of blossom-end rot 127
P. Adams, L.C. Ho

Interaction of salinity and enhanced ammonium and potassium nutrition in wheat 133
A. Shaviv, J. Hagin

A method to optimize N-application in relation to soil supply of N, and yield of potato 139
D.K.L. MacKerron, M.W. Young, H.V. Davies

•

Research articles

***Acetobacter diazotrophicus*, an indoleacetic acid producing bacterium isolated from sugarcane cultivars of Mexico** 145
L.E. Fuentes-Ramirez, T. Jimenez-Salgado, I.R. Abarca-Ocampo, J. Caballero-Mellado

Combined use of colorimetric and microelectrode methods for evaluating rhizosphere pH 151
H.T. Gollany, T.E. Schumacher

Identification of an index tissue to predict zinc status of wheat 161
Y.P. Dang, D.G. Edwards, R.C. Dalal, K.G. Tiller

Nutrient fluxes in the shifting cultivation system of south-west Côte d'Ivoire, I: Dry matter production, nutrient contents and nutrient release after slash and burn for two fallow vegetations 169
H. van Reuler, B.H. Janssen

Nutrient fluxes in the shifting cultivation system of south-west Côte d'Ivoire, II: Short-term and long-term effects of burning on yield and nutrient uptake of food crops 179
H. van Reuler, B.H. Janssen

The effect of phytase on the availability of P from *myo*-inositol hexaphosphate (phytate) for maize roots 189
G.R. Findenegg, J.A. Nelemans

Distribution of sulphur forms in soils from beech and spruce forests of Mont Lozère (France) 197
C. Vannier, J.-F. Didon-Lescot, F. Lelong, B. Guillet

Enhancement of symbiotic nitrogen fixation by vitamin-secreting fluorescent *Pseudomonas* 211
M. Deryło, A. Skorupska

Soybean response to nodulation by rhizobitoxine-producing bradyrhizobia as influenced by nitrate application 219
G.B. Teaney III, J.J. Fuhrmann

Daily transpiration of field soybeans as related to hydraulic conductance, root distribution, soil potential and midday leaf potential 227
N. Brisson, A. Olioso, P. Clastre

Yields of Norway spruce (*Picea abies* (L.) Karst.) in two consecutive rotations in southwestern Sweden 239
H. Eriksson, U. Johansson

Silicon amelioration of aluminium toxicity in teosinte (*Zea mays* L. spp. *mexicana*) 249
J. Barcelo, P. Guevara, Ch. Poschenrieder

Responses of some genetically diverse lines of chick pea (*Cicer arietinum* L.) to salt 257
M. Ashraf, A. Waheed

Estimates of the residual nitrogen benefit of groundnut to maize in Northeast Thailand 267
J.F. McDonagh, B. Toomsan, V. Limpinuntana, K.E. Giller

Effects of *Bradyrhizobium* strain and host genotype, nodule dry weight and leaf area on groundnut (*Arachis hypogaea* L. ssp. *fastigiata*) yield 279
D. van Rossum, A. Muyotcha, H.W. van Verseveld, A.H. Stouthamer, F.C. Boogerd

The influence of NO_3^- and NH_4^+ nutrition on the carbon and nitrogen partitioning characteristics of wheat (*Triticum aestivum* L.) and maize (*Zea mays* L.) plants 289
M.D. Cramer, O.A.M. Lewis

The influence of organic soil amendments on sulfate adsorption and sulfur availability in a Brazilian Oxisol 301
P.P. Motavalli, J.M. Duxbury, D.M.G. de Souza
